

Missions

Missions We desire to see the gospel go forth in the Seneca community as we seek to live "missionally"/ "incarnationally". This means that we engage the community with the gospel. We will live on mission and become all things to all men that we might win some. We want to imitate Jesus who modeled what it meant to be missional as he came as the incarnate God and lived amongst us. We too want to live with and be a part of the community; adapting methodologies but never changing the message of Christ. Missions, however, does not stop in Seneca. We will purposely continue to plant churches domestically as well as internationally as we strive to fulfill the Great Commission. (Matthew 28:19, Luke 2)
